Dr. Cermiers, who held the post mortem, gave the opinion before the pary that decapitation was performed where the body was found, while there was still lite in the body. It was done with a sharp kinte, or more probably with a surgeon's scaled.

This latter testimony has an important bearing on the jurisdiction were the prisoners. There is little doubt now that in beschan 24 hours the prisoners will be indicted by the Campbal county grand jary and will possibly be removed from Ohio to Kentneky for trial.

What effect this will have upon the prisoners' deposition to tell the whole truth about the murder is difficult now to predict.

To morrow, the 14'n day of behru ary, was formerly observed in Scotland, hog and and parts of France hyperial for the admining customs in relation to the admining customs in relation to the admining customs in the magnitude of the magnitude of the magnitude of the magnitude of the care and often resulted in weddings. In latter times the observance degenerated to the sending of tender or rid customs it relatives and was long in usage in the United States. In recent rears, it has almost been discarded as an adsurdity and a nursultance.

The earliest authorities say that St Valentine was a dishop, gentle, charitable and benighan, whose torgue was marvelously persuasive in convincing the heighted pagass of the errors of their was. He labored Lard and earcestly in his good work, but, also his zeal did not suit the teature of the authorities and after being could) pearen with clubs he was beheaded. This happened in the reign of Marcus Aurelius Claudius, contine 1sth day of February, somewhere about the vear 270, but after his happened in the reign of Marcus Aurelius Claudius, contine 1sth day of February, somewhere about the vear 270, but after his should reign of the canonization of the good bishop followed and his should reign of bishop followed and his name has been a household word ever The earliest authorities :37 that the good bishop followed and bis name has been a household word eve

A few only of the reasons will ne

was popular for some time until a

an more for the 14th than for the 13th or 15th
Another reason assigned was that
St Valentine, being a man of love and charity, it was natural to suppose that he would patronize these virtues Pernaps the book solution is the following With the dawning of the Linistian era pagan rite, pagan recemonies and pagan fe also organico disappear Some of the feasts, how ever, were merged into Christian holidays. The featival of the Luner calfa was the one on which the Ro nays the one on which the Ro mans did nonor to Pan and Juno, not with the banquet, the dance and th-drama but by a peculiar ceremony with the banquet, the daner and the drama but by a peculiar ceremony in which the young man drew from a box of billet, each inerribed with a maden's name, each oscholor devoting nimesif for 12 months to the ban failing to his lot. In the natural order of events the Lupreans be came St Valentines day and came St. Valentines day and the drawing of brilets was so agreeable a custom that the youthful blood rebelled against the annihilation. It was therefore permitted to car times a dir ra that time to this, with more or less variation to suit the times and the people, St. Valentine and cupid have been on very just mate terms of relationship.
